CARLISTS UP IN ARMS

Adherents of the Pretender Active In Spanish Provinces.

MADRID'S SUPPRESSION OF NEWS EXCITES POPULACE

London, July 19—Special—Madrid advices say the government fears a Carlist uprising and that extraordinary precautions have been taken. It is rumored that the Carlists have risen at Barco De Valorez, and that the local authorities are unable to cope with them.

Madrid in Tumult.

London, July 19—Special—The situation in Madrid is exceedingly grave. The declaration of martial law and the curbs put upon the newspapers in the publication of news have awakened a loud protest, and hitherto conservative men are now urging resistance to the decree. The capital is ripe for a revolt against the government, and nothing but the presence of a large military force prevents an outbreak. This will come, however, on almost any provocation unless the decree is greatly modified. The people now realize that they have been deceived as to the condition of affairs, and demand the truth at whatever cost. In the midst of the turmoil the peace agitation is increasing, and pressure is being brought upon the government to lose no time in bringing about a permanent peace with the United States at whatever cost.

Germany Needs a Lesson.

Washington, July 19—Special—The course of Admiral Dewey at Manila in warning the commander of the German warships there that he will fire upon them if they attempt to give aid to the Spaniards is approved here. Deidrichs, the German admiral, has all along manifested a decided partiality for the Spaniards, and has persisted in ignoring the blockade of the Philippine ports. If he repeats his offense Dewey has informed him he will be fired upon, and it is known that the American will carry out his threat. The course of the Germans is inexplicable in view of their oft repeated protestations of neutrality. It is thought here that Germany is looking for a quarrel with the United States. If so she will be accommodated.

Spain Hears Bad News.

Madrid, July 19—Special—The marine commandant at San Juan, Porto Rico, cables that the American cruiser New Orleans sunk the Spanish liner Antonio Lopez.

The capitulation of Santiago is officially announced. The impartial attacks President McKinley for refusing to make concessions to Gen. Toral. It says he is more rapacious than his generals.

Fear of Watson's squadron is haunting the populace of the coast towns. The exodus has begun. It has been reported that the squadron has already sailed.

Ready to Start.

Charleston, S. C., July 19—Special—The Panama sailed today for Porto Rico with five hundred bridge and railroad constructors. Two hundred negroes were also taken aboard two transports go with the Hundred and Sixtieth Pennsylvania and Second and Third Wisconsin. Final preparations for the departure are in progress.

Expect News From Dewey.

Washington, July 19—Special—The navy department is hourly expecting word from Dewey that Manila has fallen. The second expedition must be almost at Manila now. Its arrival will mean the surrender of August.

Little Fever at the Front.

Siboney, July 19—Special—The conditions at the front are good. There is still some sickness, but of a mild type. Few deaths are recorded. The fleet is ready to sail for Porto Rico at any moment.

Informed of the Surrender.

Madrid, July 19—Special—The ministers of war received a dispatch from Blanco this morning announcing the fall of Santiago and giving the terms of surrender as already published.

Lieut. Gen. Azcarraga, Spanish Army.

Thos. E. Palma, President Cuban Junta.

Gonzales De Y Quesada, in Charge Cuban Legation at Washington.

Miss Clara Barton, Pres. Red Cross Society.

Wisconsin Boys Are Off.

Charleston, S. C., July 19—Special—Everything is again hurrying towards embarkation. The mules and wagons were loaded last night, and a quick move could be made now unless countermarching orders are again received. General Ernst's brigade will go on the Grand Duchess transportation Nos 30 and 21. Ten days' rations have been drawn, but arrangements have been made to provide the companies with some fresh meat while they remain in camp. The cooking outfits and everything belonging to the Third can be loaded in one hour if necessary. It is said General Ernst's brigade will start as soon as the No. 21 is loaded.

Sailed For Manila.

San Francisco, July 19—Special—The transport Pennsylvania, with the First Montana regiment and three hundred California recruits aboard sailed for Manila this morning.

ACTED ROLE OF SAMSON FELL FROM MASTHEAD

Chinese Murderer, Driven Into a Powder Mill, Dies with Others in the Ruins.

Oakland, Cal., July 19—[Special]—A Chinese murderer named Wong Oung Yung, cornered by officers in the powder works here, exploded five thousand pounds of powder at the moment the officer was preparing to place him under arrest. The building was demolished, and seven men, including three officers, were instantly killed. Several others were fatally injured. One woman was killed by the shock, and another is at the point of death. All the buildings within three hundred yards of the powder works were razed by the force of the explosion, and fire is now completing the work of destruction. The Chinaman was blown to atoms.

MURDERED A FAMILY

Frightful Deed of a Negro in Tennessee in Search of Plunder.

Oppruss, Tenn., July 19—[Special]—Pete Burton, colored, yesterday chopped Henry Meyers, his wife and child, to death with a hatchet. Robbery was the motive.

BUSINESS HAS BEEN GOOD

Hanson Furniture Company Reports a Prosperous Year's Work.

The stockholders of the Hanson Furniture company will hold their annual meeting this evening for the purpose of electing officers and reviewing the past year's work. During the year the work and receipts have been kept running throughout the dull season. During the past five years the bonded indebtedness has been reduced from \$12,000 to \$3,000. President W. T. Vankirk stated this afternoon that between thirty and thirty five hands are now being given daily employment and that this force would soon be increased to fifty. The outlook is at present most promising for the future.

Chinese Riot Is Subsiding.

Hongkong, July 19—The riots at the French settlement in Ning Po are subsiding. Twenty-two Chinese were killed and fifty wounded. French sailors are maintaining guard. It is believed the French intended to extend the boundaries of the settlement to Sera Wei. The Chinese are incensed against the Taoteh. Business is sus-

A Sailor Terribly Mutilated by an Accident While Off the Port of Racine.

Milwaukee, Wis., July 19—[Special]—Shortly before 8 o'clock this morning the revenue cutter Besenden towed the schooner Lucy A. Sampson into the bay, and unrolled her over to a tug to be brought inside. One of the crew of the schooner had fallen from the cross-trees of the foremast and received injuries which required immediate surgical attention, although there seemed to be no hope whatever of saving his life. In falling, the unfortunate man struck the foreboom and was literally dismembered. The unfortunate sailor died at 11 o'clock. His name was William Halverson, and when he fell from the masthead the vessel was off Racine.

HOSPITAL IS IN POOR ORDER

Not a Proper Place for the Care of Sick Soldiers.

In the hospital at Jacksonville where Private George Kaylor, of this city, died, are now lying ill seventeen other boys who are suffering with mild attacks of typhoid fever. None of these young men belong to the Janesville company. In speaking of the division hospital, where Private Kaylor died, a late dispatch says: "Private George Kaylor, of the Whitewater company, First Wisconsin regiment, was sick only seven days. This is the second death in the same company. Seventeen other cases are in the hospital, and others are lying ill in quarters. The company quarters are on the shell road, and the patients are exposed to the dust and to odors from scavenger wagons. A thorough investigation will be made. Orders have been issued to have the quarters removed thirty feet further from the road."

NOTES MUST BEAR STAMPS

A Provision of the New Revenue Law Which Many Neglect.

The stamping of promissory notes has been overlooked by many customers of local banks and has caused much annoyance. The new revenue law requires that notes must bear stamps to the amount of two cents for each \$100 or fraction thereof. The same amount must be put on whatever the note is renewed. "People seem to have the idea of stamping checks very well in mind," said a local bank official. "They pay very little attention to the provision regarding notes, however, and re-

START FOR PORTO RICO

That Island Will First be Captured, Then Comes Havana.

TROOPS ARE ALREADY ON THE WAY TO SAN JUAN.

Washington, July 19—Special—Shortly after the conclusion of today's war council Secretary Alger announced that the advance guard of the Porto Rican expedition had started or would shortly start. He said Gen. Miles had received orders to leave immediately. Mr. Alger also stated that the 22,289 prisoners mentioned in Shafter's dispatch included those in Santiago city alone, and did not include the ten thousand others outside of the city. Shafter reported that he had captured ten million rounds of ammunition.

Invasion of Porto Rico.

Washington, July 19—Special—The Porto Rico expedition will be en route within forty-eight hours. The auxiliary cruiser Yale, with Gen. Miles and a portion of the troops on board, is already on the way to San Juan, and other troops from Charleston and Tampa will reach the harbor within a few days. Little opposition is expected, as the garrison of San Juan is small and the forts in a badly demoralized condition. The island will be in full possession of the United States troops before the close of the month. After that—Havana.

Washington, July 19—Special—A general movement of troops to Porto Rico will begin at the earliest possible moment. Sixty-two hundred troops have been embarked at Tampa and are ready to sail. The Third Illinois, Fourth Pennsylvania, and Fourth Ohio, have been ordered to Newport News. Other troops are directed to proceed to the same place.

Lee Will Attack Havana.

Washington, July 19—Special—It is believed that the troops now stationed at Jacksonville under Gen. Fitzhugh Lee will be reserved for the final struggle of the war—the attack upon Havana. The Porto Rican expedition will comprise troops now camped at Chattanooga, Tampa and Charleston. If Porto Rico falls an advance will be made on the Cuban capital. A capitulation may take place; however, before this is done, but if a fight is to take place it is the desire to give Gen. Lee an opportunity of meeting Blanco, who treated him so cavalierly during the closing days of his stay in Havana as American consul general. It is understood that this is the wish of Gen. Lee, and unless unforeseen circumstances arise he will be gratified.

Two Towns Capitulate.

New York, July 19—Special—A Journal special says: Caimanera and Guantanamo have surrendered, and our flag will float over these places today. Four thousand soldiers laid down their arms. Eight hundred of these are sick. The gunboat Sandoval is among the prizes captured.

Entered Santiago Harbor.

New York, July 19—Special—A Journal cable says all the American transports anchored at Aquadores and Baiquiri and vicinity entered Santiago harbor this morning. It will probably be necessary to blow up the Merrimac before the warships can enter the harbor.

Miles Still In Cuba.

Washington, July 19—Special—Gen. Miles is in Cuba, despite the report yesterday that he had sailed for Porto Rico. The war department received a dispatch from him this morning. He is awaiting orders and may leave today.

Food For the Invaders.

Washington, July 19—Special—The steamer Mascotte, now loading at New York, leaves Saturday with three hundred tons of provisions for the Porto Rico expedition.

The Spanish Prisoners.

Washington, July 19—Special—A telegram from Gen. Shafter this afternoon says the roster of prisoners has been

COUNCIL HOLDS A LONG SESSION

REQUEST THAT CITY PRINT-
ING BEAR UNION LABEL.

Sidewalk Inspectors Appointed—The Public Library Management—Tax Levy for the ensuing year is \$77,300—Orders for Street Improvements Acted Upon.

The meeting of the common council last evening was attended by all the aldermen save Messrs. Piffeld and O'Leary.

Chief of Police Hogan recommended the cancellation of the liquor license issued to James Ryan.

The annual report of the public library was received.

Bids for macadamizing North Jackson street were opened. J. Cape & Son's bid, of Racine, was 30 cents per square yard; J. H. Watson's, 40 cents; P. W. Ryan's, 50 cents.

The City Printing
Representatives of all the labor unions of the city presented a petition asking the adoption of the following resolution:

Resolved, By the common council of the city of Janesville, state of Wisconsin, that from and after the date of the passage of this resolution all printing of whatever nature shall bear the label of the Janesville Typographical Union, and the city clerk is hereby directed and empowered to carry out the provisions of this resolution, provided that nothing in this resolution shall be construed to prevent the printing of notices, etc., in the official paper of said city of Janesville as provided for by the laws of the state of Wisconsin.

Sidewalk Inspectors
Street Commissioner Palmer announced the following named persons appointed by him to assist in making an inspection of the sidewalks of said city, and that said inspection is being made:

First Ward—Silas Burdick.
Second Ward—Patrick Fanning.
Third Ward—John Hill.
Fourth Ward—Thomas Hemmens.
Fifth Ward—George Croft.

Aldermen Palmer and Carpenter were added to the police committee.

The assessment rolls were reported by the finance committee as correct.

The contract for macadamizing of North Jackson street was awarded to J. Cape & Sons, of Racine.

The gasoline street lamps caused some little discussion between the mayor and Ald. Rice, but no action was taken.

The Public Library.

Ald. Burnham presented some figures he had made in regard to the tax levy. He had left the library fund blank for the reason that there had been some talk of cutting down the appropriation and he wanted to hear from the aldermen.

Horace McElroy was given permission to address the council on this subject. He stated that the council had appropriated \$9,000 for several years past and before that \$2,500 a year. The board of directors had practiced the greatest economy in the management of that public fund. The expenses were \$1800 a year, which left \$1,200 for books and the latest publications could not be supplied for less. The expenses could not be cut and he thought that if a reduction was made in the appropriation the tax-payers would express more dissatisfaction than over that of any department of the city and it would be a very unwise act on the part of the council.

"What percentage of the stuff dumped in there are novels?" enquired Alderman Carpenter, as ex-City Attorney McElroy closed his plea for the library.

"We do not 'dump' anything in there," replied Mr. McElroy.

"All right," said Alderman Carpenter, "you need not answer my questions unless you wish to."

Mr. McElroy said that as nothing was "dumped" he didn't know how he could answer it.

Alderman Carpenter insisted that the novels were "dumped."

Mr. McElroy said a considerable portion of the books bought were carefully selected works of fiction as the people demanded them.

Alderman Carpenter—What proportion are French novels?

Mr. McElroy—A very small percentage.

Carpenter—Are they good books for people to read?

McElroy—They should be in every library. The books bought are the best of reading.

Considerable sparring marked the discussion of the question, and at the conclusion of the talk, Alderman Car-

pentier's motion that the library fund be placed at \$2,500 was adopted.

The mayor made a statement of the present status of the franchise to the Janesville Telephone company. He recommended that no further steps be taken at present unless the demands of the city as to the maintenance of the lines and the use of telephones were complied with.

The Tax Levy.

Alderman Burnham introduced a resolution, which was adopted, that \$77,300 be raised by taxation for municipal purposes for the year 1898, and that the sum be apportioned into the several funds as follows:

School fund.....\$25,000
General fund.....10,000
Fire and water fund.....8,500
Lighting fund.....12,000
Library fund.....2,500
Bonded debt fund.....5,000
Judgment fund.....2,000
First ward fund.....2,500
Second ward fund.....1,500
Third ward fund.....3,000
Fourth ward fund.....2,500
Fifth ward fund.....1,800
Total.....\$77,300

Orders Adopted.

Orders were adopted for the payment of various bills against the city; for the repair of Galena between Locust and Academy streets; authorizing the Chicago & Northwestern railway to build a retaining wall from the north end of the bridge to the east line of North River street; for an oil lamp on Vine street and Delavan road; for a new sidewalk on Sharon street; directing the cost of grading South William street to be assessed upon the property fronting on said street; ordering a 12-inch culvert at Glen and William streets; to improve South Bluff street from Sharon street to the detention hospital; to correct the specifications for macadamizing South Main street; and that the council accept the bid of P. W. Ryan for macadamizing the street, \$300 of the expense to be paid out of the general fund and the balance from the Third ward fund.

TEE PUBLIC LIBRARY FIGURES

Annual Report of the Directors Submitted to the Common Council.

At the meeting of the common council last evening, the annual report of the president, Horace McElroy, was submitted as follows:

In accordance with the requirements of the statutes of this state the board of directors of the public library submit to your honorable body the following report of the management of their trust during the past year:

We have added to the library during that time, by purchase, 871 volumes, together with 50 volumes of government reports and 102 volumes of bound magazines, making a total number of volumes now in the library 15,098. During the year we have had rebound and placed upon the shelves 739 volumes.

The total number of books drawn out during the year was 43,083, showing a gain on the preceding year of 4,102. The daily average attendance at the reading room also shows a gratifying increase.

The following is a statement of the money received and paid out from June 30th, 1897, to June 30, 1898.

Balance June 30, 97.....\$ 487 72
Library fund.....3,000 00
Fines.....35 83
Total.....\$3,823 53

The above balance is sufficient to meet the fixed expenses of the library until the annual appropriation for the present year is available. As to such appropriation we would ask the council for the same amount as that given in the past few years, as the needs of the library could not be met with a smaller sum.

UNDER FIRE ON THE COAST OF CUBA

C. C. COOK, A JANESVILLE MAN,
ON THE WAMPATUCK.

Enlisted in the Chicago Naval Reserves Early in the War—What he Saw on His Recent Cruise—Has Been Badly Wounded Since Writing the Letter.

Clarence C. Cook, who formerly edited the Wisconsin Tobacco Leaf in this city and lived at Mrs. Hamilton's boarding house on Park Place is a member of the Chicago Naval Reserve that has recently been operating off the coast of Cuba. In a recent letter written on the steamer's Wampatuck to his parents he describes a visit to Guantanamo by his vessel. "After the landing of 17,500 troops at Aguaduro and Baiquiri," he says, "during which we bombarded the hills and towns in the vicinity to drive out the Spaniards we went to Guantanamo for repairs. The town is already in our hands and 400 marines were landed here. We saw the Spanish prisoners captured by the marines including one colonel, one corporal and seventeen men. The town has been burned but there are about 150 Cubans in camp. The tents consist of four poles stuck in the ground which are topped with branches and large leaves. Their uniforms are varied anything their hands can fasten to. Many wear sailor uniforms, or parts of them given by the bluejackets. Others are in rags, but whatever they wear they are a thieving set, ignorant and dirty, but are fighting bravely for liberty."

"About 11 o'clock day before yesterday we arrived at Santa Cruz. The Hist and Hornet went into close range and opened fire on the sand batteries, while we lay about 1,000 yards away. There was nothing to capture, so we shaped our course to Manzanillo, where we got a warm reception from six gunboats, one torpedo boat, one cruiser, one small craft and a battery on shore, and there were only three of us."

The Hist led the line of battle, the Wampatuck being second and the Hornet third. We were outclassed three or four times, but nevertheless we sank one gunboat and set fire to another. It seemed as if everything in the harbor had a gun on it."

"A shower of shot and shell greeted us. The battle raged about an hour and forty minutes. We were struck four times and have a relic every much prized. Our lifeboat, made of sheeted steel and tanked at both ends, was pierced by a three-pound shell and a piece of one of the fenders struck the firefinger of my left hand. I shall keep it as a memento of my first battle. The Hornet was struck amidships and the shell went through her steel sides, two inches of wood, cut three steam pipes and lodged in her coal bunkers. She had to be towed out by our gallant Wampatuck. As John Slater was not there I was the only Ravenswood boy in the battles of Santa Cruz and Manzanillo."

Since writing the above Mr. Cook has been severely wounded, but at last reports was in a fair way towards recovery.

MONONA ASSEMBLY OPENING

Prospect of an Unusually Interesting Gathering This Year.

Madison, Wis., July 19.—Monona assembly was opened this afternoon, when Samuel D. Hastings, of Green Bay, delivered the address of welcome, and President W. S. Main the annual address. Yesterday the final preparations for the session were completed, and where recently was a grass grown park now appears a city of tents. Application have been made for tent accommodations for nearly 1,500, and 500 tents have been engaged. There is still ample room for those campers who will come later.

The management has opened a big dining hall at the western end of the grounds. The meetings are held in a great open air auditorium, capable of seating several thousand.

Sunrise hall, which has in former years done service as a dining hall, has been converted into a women's dormitory where transient visitors can be given beds. The tent office has a men's dormitory attached. The assembly ground is a small city in itself, having a postoffice, stores, boat livery, and an excellent steamer service with the city. The season will last until July 29.

The first meeting to be held today will be the Teachers' Normal class in the Rustle temple. At 4:30 the W. C. T. U. institute will be organized at the same place. Another meeting will be at 5 p. m. and the opening services will take place at 8 p. m. All these meetings, except the opening services will be for organization only.

WISCONSIN CATHOLIC KNIGHTS

Their Annual Convention at Fond du Lac, Wis., July 19.—Delegates are arriving for the state convention of the Catholic Knights of Wisconsin, which convenes here, for three days, beginning today. Archways have been erected and the city presents a holiday appearance. With its decorations in the national colors, old glory floats from every flagstaff. Evergreens line the main thoroughfares and Convention hall is decorated both on the interior and exterior. All arrangements have been completed and the only thing that can put a damper on carrying out the program will be inclement weather. Band concerts are to be given by both the local and visiting bands.

The convention was opened with the celebration of high mass at St. Joseph's church this morning at 10 o'clock, upon the arrival of the Knights in a body at the edifice. Afterwards an address of welcome was delivered by the mayor, to which President Wigman, of Green Bay, responded. This was followed by business sessions during the day.

Terribly Afflicted

Little Girl Could Hardly Breathe Owing to Catarrh

Hood's Sarsaparilla Cured Her and Her Worn Out Mother.

"My little girl was terribly afflicted with catarrh and she could hardly breathe at night. She took many different medicines without benefit and we became almost discouraged. One day I read an advertisement of Hood's Sarsaparilla and concluded to try it. She began taking it and was soon relieved. I believe she is now permanently cured, as she has not been troubled with catarrh for some time. I was run down in health myself and suffered constantly with backache, and felt all worn out. I thought Hood's Sarsaparilla might help me and I began taking it and it has cured me. I have not had any return of the lameness in my back or tired feeling." Mrs. A. H. ALLEMAN, Medford, Wisconsin.

AN HONEST GOVERNOR.

Marionette Eagle—Whatever may be the criticisms against Gov. Scofield for a mistake he has made, and like all men belays he is not free from them, the one fact stands out prominently that he has not attempted to cover up or hide his errors, but that he has a record of his official conduct in an open book which all may read. It is the fact that Gov. Scofield, like every other governor of the state who preceded him, made use of express frankness. It is equally true that about a year ago he decided that a man occupying a position ought not to longer use a pen and that he demanded of the express company from which he held a blank that all bills for shipments made by him be presented, at the same time paying the bills that were presented, and not using an express blank since. This was done, it must be remembered, before the criticism on his use of the frank began. A man who acknowledges the error in his way and endeavors to do better in the future, he usually gives credit therefore; but the critics who claim to be good republicans and who are plotting against him now claim that he should be condemned for his past errors and no credit for his reformation. The fact is, the governor is in the lead in this matter as his action in continuing the use of franks before was subject to criticism shows. He will continue to lead the process and La Follette and his friends, who had opportunity to do something during the last session of legislature, the lines they are now advocating and neglected to do so, are left behind.

JUSTICE TO MR. COOPER.

The question has been asked, "Why Speaker Reed depose Congressman Cooper from the river and harbor committee?" and justice to Mr. Cooper demands that this falsehood should receive attention. Speaker Reed has not deposed Mr. Cooper. Mr. Cooper is number two on the committee, and ranks next to the chairman. In recognition of Mr. Cooper's excellent work as a member of this committee, Speaker Reed advanced the Wisconsin from number five on the list, to number two, when the committee were appointed. The committee now ranks as follows:

Charles B. Hooker, New York, Chairman.
 Henry Allen Cooper, Wisconsin.
 Theodore E. Burton, Ohio.
 William M. Barry, Massachusetts.
 William H. Rivers, Illinois.
 Mackburn B. Davenport, West Virginia.
 Russell P. Bishop, Michigan.
 Ernest F. Acheson, Pennsylvania.
 George Morris, Minnesota.
 William L. Ward, New York.
 Thomas C. Catherings, Mississippi.
 John H. Bankhead, Alabama.
 William D. McCall, Arkansas.
 Robert A. Berry, Kentucky.
 Stephen M. Sparkman, Florida.
 Thomas H. Ball, Texas.
 L. Hancock, Clerk.

Thus, the record shows that Mr. Cooper, instead of being deposed, was advanced by Speaker Reed for services rendered. The opponents of Congressman Cooper who use such disreputable means of injuring him, should be ashamed of themselves. They can do harm, however. The "truth is mighty, and will prevail" while lies always react on the teller thereof.

A. R. Hall should remove to Belgium, where he would have a larger field in which to labor. The Belgian government has ordained that, in the interest of news-gathering, every newspaper in the country is entitled to a free pass over all the railroads in the country. Mr. Hall should go over and put a stop to this thing before the government's order puts all the newspapers in the hands of the railway companies, thus eventually wrecking the government.

A Scottish authority on insanity thinks the bicycle may be the cure for insanity. His idea is, probably, that the patient will go so crazy over the bad qualities of the particular make of wheel that he uses, that all other ideas will flee from his mind.

Although Bill Nye's "gob of gloom" is now permanently located in Madison, the fact remains that according

than any other country in Europe, the yearly average being 3000 hours.

Congressman Cooper's traducers should now amend their question so that it will read, "Why did speaker Reed advance (not 'depose') Congressman Cooper on the river and harbor committee?" Then the question will embody the truth, and the answer will be, "Because of Congressman Cooper's excellent work."

The Milwaukee Evening Wisconsin says Mr. La Follette's declaration that he will be a candidate for governor shows that his work during the past two years has "not been entirely disinterested." Of course not. He wants official honor.

The opponents of Congressman Cooper must be getting discouraged. Every time they start some canard concerning him they run bump up against the records disproving their assertions and canards are their sole stock in trade.

Chairman Rice, of the lighting committee, naturally objects to assuming the responsibility for the oil lights, and his judgment as to their efficiency, will be accepted as good by many people.

The Spaniards are famous for their fondness for bull-fighting. Their failure in the conflict with "Bull" Shafter, however, may cure them of their sportive predilections.

The Janesville Recorder suggests that R. M. La Follette and Ellis B. Usher be exhibited about the state together. Wouldn't that be a little hard on, well, um, but paw! Let it pass.

How can the Germans of the Milwaukee wing of the La Follette machine get along with Bennett Law Hoard?

REPUBLICAN STATE CONVENTION.

Headquarters Republican State Central Committee, Milwaukee, June 15.
 To the Republican Electors of Wisconsin: By direction of the State Central committee, a convention of the republican electors of the state of Wisconsin will be held in the city of Milwaukee on Wednesday, the 17th day of August, 1898, at 12 o'clock noon, for the purpose of nominating a republican state ticket to be voted for at the general election in November next, and to transact such other business as may properly come before the convention.
 The republican electors of Wisconsin are cordially invited to unite under this call in sending delegates to said state convention.
 In accordance with resolution recommended by the state convention and formally adopted by the State Central committee, in electing delegates to the state convention, in counties having more than one assembly district, except Milwaukee county, the unit basis shall be the assembly district, and in such counties delegates shall be elected by assembly district conventions, and the names of the delegates so elected shall be certified to the State Central committee by the chairman and secretary thereof; in all other cases delegates shall be elected by county conventions.
 Under the present basis of representation the several assembly districts in the state are entitled to one delegate for every two hundred and fifty (250) republican votes, or major part thereof, cast at the last preceding presidential election.
 Special attention is hereby called to the fact that all conventions to elect delegates to the state convention must be called on a notice of not less than four weeks; all town or ward caucuses as preliminary to state convention on a notice of not less than ten days; and that notice of the meeting of such convention or caucus shall be given in the usual manner.
 As the State Central committee acts as the Committee on Credentials, it is requested that credentials of delegates elected, duly certified to by chairman and secretary of county or assembly district conventions, be forwarded to the secretary at Republican State Central Committee headquarters in Milwaukee, immediately upon their election; in every case giving the names in full and postoffice address.
 EDWIN D. COE, Chairman.
 JOHN M. EWING, Secretary.

Stock county will be entitled to 33 delegates, distributed among the assembly districts as follows: First district, 9; Second district, 11; Third district, 13.

SUNDAY SCHOOL PICNIC

Pleasant Outing Enjoyed By the Children of the Baptist Church

At Idlewild park today the members and friends of the Baptist Sunday school made merry, the occasion being their annual picnic. At 10 o'clock this morning the steamer Maydower made the first trip of the day carrying a good sized crowd who had planned to take their dinner beneath the shady trees. The sweltering weather throughout the day was alone inducement enough for one to make an up river trip, and not a few took advantage of this part of the program. Games of a various nature were indulged in.

Trouble Spreading News.

Guantanamo Bay, July 17, 9. p. m.—The work of notifying the Spanish troops of the Fourth army corps outside of those which composed the garrison of Santiago of the surrender of Gen. Toral is likely to be attended by some trouble.

The Spaniards at Guantanamo are evidently still ignorant of the capitulation, and the Cubans under Gen. Perez have daily skirmishes with the defenders of the town, who are apparently trying to break through the lines and join the Spanish forces at Santiago.

Gen. Miles, who arrived here on the Yale this afternoon, says that Gen. Toral will send officers to the different garrisons in the province telling them of the surrender. The Spaniards in Guantanamo can be easily reached and they will be ordered to come down the bay and surrender. Those inland, however will be more difficult to communicate with and it will probably be some time before all the Spanish troops know the fact.

Two of Our Soldiers Die.

Portsmouth, N. H., July 19.—One death has occurred in the camp on Seavey's Island and another aboard the Harvard, both being from malarial fever.

The work of removing the rest of the sick from the cruiser will be completed today and the Harvard will sail for New York. Dr. Hefflinger, the ward physician, has recommended to the authorities in Washington that the cruiser be kept in quarantine in New York until she is completely disinfected and the crew show no indication of disease.

PROFESSOR BUELL GOES TO BROADHEAD

HE HAS ACCEPTED THE POSITION OF SUPERINTENDENT.

Would Have Gone There Before If He Had Been Able to Get a Release From His Janesville Engagement—The Office is an Important and Desirable One.

The announcement in The Gazette of Saturday last, that Prof. H. O. Buell, of the Janesville high school, had been offered and would probably accept the principalship of the Broadhead school, created quite a sensation in educational circles here. Prof. Buell being absent from the city, no verification of the report could be obtained, although the report had come from a trustworthy source. Some of the Professor's friends acquiesced in the idea that he would leave his present position, yet facts since obtained by The Gazette prove the truth of the first report.

Wanted a Wider Field. For some time past, it appears, Prof. Buell has been dissatisfied with his position in Janesville. If he was content to remain a simple teacher of certain branches all his life he could, probably, find no better place than that he has recently occupied. But he wanted a broader field in which he might obtain experience which was denied him here. His name was under consideration by the Broadhead board of education when Prof. Reimow was chosen to take Prof. Pringle's place last fall, but it was then understood that he could not procure a release from his Janesville engagement in shorter time than a month. As someone was needed immediately the Broadhead board made a temporary arrangement with Prof. Reimow.

His New Duties. The actual work of Prof. Buell will begin with the opening of the school year in September. He will be principal of the High school, and have the supervision of all the lower grades although the title of superintendent does not go with it. There are ten schools below the High school. Prof. Buell has had an excellent reputation in the state as a teacher, and four or five years ago his name was mentioned as one desirable for the place he has now accepted, although he had not applied. He has never been really out of mind since.

Leaves Janesville in September. Professor Buell will not resume his old duties at the high school after his return from the east, but will go at once to Broadhead, taking his family with him, beginning his duties the first week in September. During his stay here he has won the good opinion of our citizens generally by his tact and ability as a teacher, and while they will regret to lose his services, they will congratulate him upon his advancement both in rank and salary. As yet no one has appeared as a candidate for the position which will be made vacant by Professor Buell's removal. There will be no lack of material, however, for the position is a desirable one from many points of view.

TAKE A TRIP TO THE PACIFIC

Editors Are on Their Way to See the Sights of the Far Northwest

Mr. and Mrs. O. H. Brand and E. M. Hardy, of this city, will leave for the Pacific coast this week on the Wisconsin editors' excursion that starts from Waukesha Thursday morning. The Wisconsin editors will have a special train of sleepers of their own that they will occupy the entire trip, which will take about two weeks. They will go via Canada, and bring up at Vancouver Island on the Pacific. A trip by boat will then be made to the United States and the route home will be through this country, which will embrace unexcelled mountain scenery. Stops will be made at all the large cities and points of interest en route. Banquets have been prepared along the route by the different cities, and nothing will be found lacking.

JAIL QUESTION HANGS FIRE

County Board Will Take It Up at the November Session.

County officials believe that the board of supervisors will take action regarding a new jail at the next meeting. The state board has been given assurances amounting to that, and it is not likely to take arbitrary steps in the meantime. While N. B. Treat, of the state board, was here yesterday afternoon, some of the preliminaries were discussed.

A FAMOUS DISH

With a New and Savory Flavor. Chop beef, mutton or pork into a hash. Take a quantity of Grape-Nuts equal to half the amount of meat. Mix into the Grape-Nuts a raw egg and what milk it will take up salt and pepper to taste.

Now thoroughly mix meat and all into a hash, form into patties like sausage and place in a hot skillet with only enough butter on bottom to prevent sticking. Place cover over the skillet and cook until done.

Put a little piece of butter on top of each patty if they tend to become dry, but do not use enough to make greasy. Serve hot and you will discover that the meat has acquired a most savory flavor from the Grape-Nuts and at the same time it has been rendered easily digestible and the elements in the Grape-Nuts furnish most valuable nourishment for the athletes as well as for invalids. THE WIDOW GETS THE INSURANCE

JUDGE BENNETT DECIDES KEMMERER CASE

Holds That the Widow and Children of the Deceased Are Entitled to the Money—The Testator Was Unduly Influenced by His Parents in Changing the Policy.

Mrs. Belle V. Kemmerer is justly entitled to the \$1,000 life insurance left by her late husband, Mantello Kemmerer, of the town of La Prairie. In the circuit court of Rock county this morning Judge John R. Bennett said that the assignment of the insurance policy made by the deceased, Mantello Kemmerer, fifteen days prior to his death, and which transferred a \$1,000 insurance policy from the hands of a mother to her children, was void on the grounds that such assignment was procured by fraud brought about by undue influence on the part of the aged father and mother of the deceased. The court then ordered that the clerk of the court pay over to the plaintiff the sum of the policy, \$1,000.

An Interesting Litigation. Thus comes to an end one of the most interesting cases that has been before the circuit court of Rock county this term. The parties to the action are residents of the town of La Prairie, and are well known. It was simply a legal battle between mother and children over the possession of a \$1,000 life insurance policy left by a now deceased husband and father.

Mantello Kemmerer, now deceased, was a stock buyer and farmer in the town of La Prairie, and was widely known and esteemed by all. A few years ago, and prior to his marriage, he joined the Modern Woodmen camp at Shepley, taking out a \$1,000 policy which at that time was made payable on his death to his mother. Soon after becoming a member of the Woodmen order Kemmerer was married, and there and then had this insurance policy changed and made payable to his wife instead of his mother. During the summer of 1896 Kemmerer was taken ill with a tumor trouble, and before the end of the summer his condition became so critical that he decided to consult Dr. Nicholas Sonn, of Olesburg, who at once advised him that his case was a most dangerous one, and that if he had any business matters to arrange at home he had better return and attend to them at once.

Transferred the Policy. Soon after returning home he was obliged to take to his bed, and on May 5, 1897, he died. Fifteen days prior to his death, Kemmerer changed the payment of his \$1,000 life insurance policy from his wife to their children, Mrs. B. Kemmerer, the wife and mother, objected to this and at once came to Janesville and secured legal counsel, claiming that her husband had been influenced while not in his right mind, and further claiming that his aged father and mother were the ones who influenced him.

The case has been pending in the court for some time and was sharply contested, the defendant claiming that Mr. Kemmerer prior to his death and at the time he changed the policy was in his right mind and knew what he was about. Attorney E. D. McGowan represented the plaintiff, while the interests of the defendants were looked after by Attorney A. A. Jackson, the title of the action being Mrs. Belle V. Kemmerer against Charles M. Kemmerer, guardian, Laure Kemmerer, et. al.

Gov. Scofield Protests. Would Stop Unnecessary Hardships to Which Wisconsin Soldiers Are Subjected.

Madison, Wis., July 19—Governor Scofield yesterday took initial steps to stop the extreme hardship the Second and Third Wisconsin Volunteer Regiments are subjected to at Charleston by being forced to make eleven mile marches in heavy marching order before breakfast. The Governor has telegraphed Colonels Moore and Born for particulars and purposes making a vigorous protest against this unnecessary and inhuman method of seasoning the boys.

During Saturday's march 55 per cent of the Second and 35 per cent of the Third Regiment were overcome by the heat and forced to fall out of the ranks. Home friends of the volunteers have united in urging the governor to take immediate and vigorous action.

BOTH CASES WERE DROPPED. Two Unimportant Offenders Before the Municipal Court.

In the municipal court this morning Charles Nichols, of this city, was arraigned, charged with assault and battery. The complaining witness was Bertha Schmidt, who claimed that the defendant got angry with her and dealt her a stinging slap. The interested parties work in the woolen mill, and are well known. The case was dropped on the payment of costs.

The case of the State of Wisconsin vs. William Welch, was dropped on the payment of costs by defendant.

COOL BREEZES ARE WELCOME

Grateful Change in the Weather Comes This Afternoon

Four days of sweltering heat was broken this afternoon at 1:30 o'clock by the appearance of a most welcome cool wind that came from the north. During the greater portion of the morning the thermometer registered as high as 98 in the shade. In the sun it passed the 100 mark in many portions of the city. The cool drink pavilions were a favored spot this morning while not a few spent the morning indoors rather than venture out.

The hard rain that visited this section during the early hours was most welcome. The strong wind that accompanied it created havoc in certain sections by blowing down small grain, while the frequent flashes of lightning caused more fright than damage.

BOUND FOR MONONA LAKE

Large Crowds on the Way to Attend the Annual Assembly.

Twenty-five people from this city purchased tickets this morning for the Monona Lake Assembly at Madison. On the morning train on the St. Paul road large crowds arrived in the city, the greater portion of which were composed of women. Baggage piled high in the air filled each truck, and bicycles by the dozen lined the depot platforms.

The greater portion of the crowds this morning came from the western portion of the state, while not a few came from the northern part of Illinois. Janesville this year promises to be well represented.

HAS SAILED FOR PORTO RICO.

Major-General Miles Left Siboney Yesterday.

10,000 SOLDIERS WITH HIM.

Twenty Thousand More Are to Be Hurried from Tampa, Charleston and Chickamauga to Take Part in the Invasion of the Island.

Washington, July 19.—The advance expedition to Porto Rico, under Gen. Miles, has already started and is to be landed on that island before the end of this week, according to final orders which were issued from the war department Monday, and as rapidly as possible Maj.-Gen. Brooke's troops will hasten after to co-operate in the energetic campaign which has been mapped out. The troops under Gen. Miles' immediate command aggregate nearly 10,000 and those assigned Monday to Gen. Brooke exceed 15,000 men.

Gen. Miles reports having already left the vicinity of Santiago on the auxiliary cruiser Yale with Gen. Randolph and four batteries of light artillery, stopping at Guantanamo to await the strong naval convoy which will prepare a safe landing place by shelling the selected locality near San Juan. Simultaneously Gen. Ernest's brigade at Charleston, which was ready to depart for Santiago last Friday when that city surrendered, has embarked on the transports La Grande Duchesse, Obdam and Mobile to join the Yale, and from Tampa it is announced that 6,000 men upon eight transports start at once to meet the other vessels on the Porto Rican coast. The transports at Tampa are the Cherokee, Gussie, Morgan, Whitney, Arcadia, Florida, Mohawk and Fanita.

It is possible that Gen. Miles will learn that his 10,000 men, with the assistance of Admiral Sampson's fleet, will be able to seize the entire island of Porto Rico, but whether or not the defense is of a desperate character reinforcements will be promptly hurried forward under the plans which have matured during Gen. Brooke's stay in Washington. The war department refuses to announce the selected regiments assigned to Gen. Brooke's command to avoid the pressure that would surely result to secure the substitution of other forces at the last moment through political influences, but it is pretty well understood that the bulk of them are coming from Chickamauga, and that the entire division under Maj.-Gen. Wilson will constitute the greater part of the force. Indications have been given that the First Rhode Island volunteers from Camp Alger will be taken. Nearly all Gen. Brooke's troops will start their voyage from Newport News, and the first transports from there will probably carry Gen. Haines' brigade, now at Chickamauga, consisting of the Third Illinois, Fourth Ohio and Fourth Pennsylvania. This is the second brigade of Gen. Wilson's division. The plan of campaign adopted by Gen. Miles is understood to contemplate movements of extreme rapidity and aggressiveness.

Scotfield After Information. Madison, Wis., July 19.—Gov. Scofield telegraphed to Col. Born of the Second and Col. Moore of the Third Wisconsin regiments at Charleston to get official information of the alleged overtasking of the members of the regiments last Saturday when they were marched ten miles at Charleston with no breakfast and the temperature 110. It was reported that only a few of the men stood the ordeal, and many were in the hospital from the effects. Gov. Scofield would not say what he should do if the facts were as bad as reported, but it is thought a protest may be filed at Washington.

Telegram from Miss Barton. New York, July 19.—The following cablegram was received at the Red Cross headquarters from Miss Clara Barton: "We will go in with the navy and then discharge the Texas immediately. All points are fever-smitten. Do not send persons not immune for us to care for. Lesser and nurses all recovering. No possible cause for alarm."

Early Peace Not Looked For. Washington, July 19.—No overtures for peace, either direct or indirect, have been received from Madrid, and it is doubted if they are expected by the administration. Some of the wisest diplomats in Washington, who are familiar with the Spanish character and Spanish politics, do not share the general confidence that there will be an early termination of the war.

Bryan on the Way to War. Omaha, Neb., July 19.—Col. Bryan and the silver battalion left Omaha Monday afternoon for Jacksonville. The troops were not permitted to march through the city because of the extreme heat, but took the trains at the fort. Six passenger trains of six cars each carried the regiment.

Peace Is Demanded. Madrid, July 19.—The president of the Madrid chamber of commerce has received twenty-five declarations in favor of peace from chambers of commerce representing coast districts. None of the chambers of inland cities has declared either way.

Wants Free Silver Dropped. Boston, July 19.—Gamaliel Bradford has issued a long statement to the Democrats of Massachusetts, charging that the war is being carried on solely for the purpose of keeping the republican party in power and urging that the democrats drop the currency question and get together on other issues.

Glassmakers to Resume. Anderson, Ind., July 19.—The Wagoner Flint Glass Company, operating plants at Ingals and Frankton, and the McCollough Company, operating plants at Marion, have notified union flint glass workers that because of the union's refusal to permit its men to work in the summer they will immediately reopen their plants with non-union workmen and manufacture fruit jars. The market is cleaned, prices are high and the demand is enormous—the greatest since 1891.

E. O. Blanks, of Lewisville, Texas writes that one box of DeWitt's Witch Hazel Salve was worth \$50.00 to him. It cured his piles of ten years' standing. He advises others to try it. It also cures eczema, skin diseases and obstinate sores. People's Drug Co., East Milwaukee street.

Excursion On Sunday, July 25th, to the Beautiful Dells of the Wisconsin.

Perhaps there is no place in Wisconsin more famed for its marvelous scenery than the Dells of the Wisconsin. There is nine miles of this scenery on the Wisconsin River beginning at Kilbuck City and running north. Cold Water Canyon and Witches' Gulch are bits of wonderful almost magical in curious formations of rock, and as a cool retreat are a luxury. Round trip rate only \$2. Train leaves Janesville over the St. Paul railway at 7:30 a. m. Sunday July 25.

Hon. O. B. Bush, president of the Gilmer County (W. Va.) Court, says that he has had three cases of flux in his family, during the past summer, which he cured in less than a week with Chamberlain's Colic, Cholera and Diarrhoea Remedy. Mr. Bush also states, "but in some instances there were twenty hemorrhages a day—Glenville, W. Va., Pathfinder. This remedy has been used in nine epidemics of flux and one of cholera, with perfect success. It can always be depended upon for bowel complaint, even in the most severe forms. Every family should keep it at hand. The 25 and 50 cent bottles for sale by People's Drug Co., E. Milwaukee St.

To Give a Home to Cervara. Port Tampa, Fla., July 19.—A movement has been started here to present Admiral Cervara a home on Tampa Bay in recognition of his humane and chivalric treatment of Hobson and crew, and a desire to save him from insult and possible death should he return to Spain.

Fever Scare Is Not Justified. Washington, July 19.—The yellow fever scare is not justified by the official reports made to the war department. There are fewer than 300 cases in the army and they are mild, and Gen. Miles says he would rather have it than the ordinary camp dysentery.

Statue for Mr. Gladstone. London, July 19.—The treasury has commissioned Thomas Brock, R. A., the sculptor, to design the statue of Mr. Gladstone, which is to be erected in Westminster Abbey.

BORT, BAILEY & CO.

LATE NEWS BY TELEGRAPH.

ADMIRAL DEWEY WAS FIRM.

Asked German Commander to State His Position.

INTERNATIONAL LAW QUOTED.

The Germans Resented the Boarding of Their Vessels on Entering the Harbor—Are Asked if Their Nation is a Friend or a Foe.

Manila Bay, July 15 (via Hongkong, July 19).—Admiral Dewey has requested from Admiral Diederichs an explanation of Germany's position in the Philippines. He has also protested against the German admiral's disregard of the American blockade of Manila.

For several weeks Germany has been constantly enlarging its fleet in these waters, until now all German ships on the Asiatic station, with the exception of the Deutschland, the Arcona and the Gefion, are either in Manila bay or in its vicinity. The German naval officers have taken pains to show particular friendliness toward the Spaniards, as for example in saluting the Spanish flag at Manila on the arrival of every additional German ship. The German officers have visited the Spanish fortifications and trenches and the Manila newspapers have asserted that the presence before the city of so many German ships enabled the Spanish authorities and the people of Manila to regard the American fleet with complacency.

Three weeks ago the German admiral told Admiral Dewey that three of his ships were to depart, but they went only as far as Mariveles. Subig bay and Cebu. On June 27 the McCulloch met the Irene, one of the German fleet, at Corregidor island, preparing to enter the bay, and signalled to her: "We wish to communicate with you." The Irene paid no attention to the signal, and proceeded on her way until a small boat was sent out to her from the McCulloch. The captain of the Irene explained the matter by saying that he had misunderstood the signal.

The action of the Irene in interfering with the attack by the insurgent vessel, Filipinas, on the Spanish garrison at Isla Grande, in Subig bay, was in line with the attitude adopted by the German naval officers here. As soon as the insurgents reported the matter to Admiral Dewey he dispatched the Raleigh and Concord to Subig bay and captured the Spanish garrison, the Irene departing hastily on the arrival of the American warships.

Four days ago Admiral Dewey sent an officer to the German flagship with a request that Admiral Diederichs make a statement of the German attitude in the matter of the blockade of Manila. At the same time he delivered a protest against various actions by German officers, such as have been mentioned here. The German admiral sent an immediate explanation. Two days later, however, he sent a protest to Admiral Dewey against the action of American officers in boarding German ships coming to Manila from Mariveles. He cited the incident of the McCulloch and the Irene at Corregidor.

Admiral Dewey replied to this very courteously, but very firmly. He pointed out to the German admiral that international law gave to the commander of a blockading fleet authority to communicate with all ships entering a blockaded port. As international law permitted warships to fly any flag they chose in order to deceive the enemy, the nationality of vessels entering the bay could not be determined absolutely without communicating with them. He announced his intention to communicate with all ships entering the bay. For the German admiral's further information Admiral Dewey told him that if Germany was at peace with the United States the German naval officers here would have to change their methods, and that if Germany was at war with his nation he desired to know it at once in order that he might act accordingly.

Presumably the German admiral is still meditating on this message. The German warships now here are: The Kaiser, flagship, a first-class armored cruiser of 7,500 tons, mounting eight ten-inch guns and a formidable secondary battery; the Kaiserin Augusta, a first-class steel cruiser of 6,000 tons, with twelve five-inch guns and a quick-firing battery; the Irene, a second-class cruiser of 4,500 tons, mounting five-inch and quick-firing guns; the Cormoran, a third-class cruiser, about the size of the Concord, but scarcely so well armed; the Princess Wilhelm, a second-class cruiser, as large as the Baltimore, but out-classed by her in armament and speed.

The Boston has gone to meet the transports conveying to Manila the second detachment of troops.

SCHLEY IN SANTIAGO HARBOR.

Spanish Flag Lowered from the Heights of the Fortifications.

Santiago de Cuba, via Playa del Este, July 19.—At exactly 9 o'clock Sunday morning the Spanish flag was lowered from the staff crowning the heights upon which battered Morro Castle spreads half way. The lowering of this emblem of the defunct sovereignty of Spain in this part of the world was witnessed by a few Spanish and American troops on shore and by the Brooklyn, New York, Vixen and Vesuvius, lying within a few hundred yards of the harbor entrance.

Almost immediately after the flag

was hauled down steam launches commanded by Lieuts. Hobson and Palmer entered the harbor, penetrating as far as the firing stations of the submarine mines. These mines were judged to be not so formidable as expected, and later in the afternoon they were all exploded under the supervision of the Vixen.

Six or seven steamers in the harbor fall as prizes to the army and navy. The Spanish gunboat Alvarez had already been taken possession of by a prize crew from the New York. The other vessels lie at the other end of the harbor, at Santiago proper.

TO TAKE MANILA.

General Anderson Begins His Advance on the City.

Cavite, July 14.—The American advance on Manila will begin tomorrow, July 15. Gen. Anderson has examined all the territory between the Spanish outposts and the insurgent lines and has planned his campaign. Tomorrow's movement is to be the first step toward carrying out those plans. The First battalion of the First California regiment will lead the way, moving to Paranaque, and there establishing an outpost camp. Other troops will be pushed forward immediately, though no general assault on the city is expected before the Monterey and the next re-enforcements reach here.

Troops in Cuba to Rest.

Washington, July 19.—It has been finally decided that none of the troops that participated in the actual fighting before Santiago will be employed on the Porto Rico expedition. There are two reasons for this—first, the men have suffered severely from hardship, the climate and from fevers, and are entitled to a rest; second, it is deemed to be very bad practice to allow the soldiers who have been exposed to yellow fever to be brought in contact with those fresh from the United States. There is also still another reason—a purely military one. Ten thousand Spanish troops are at Holguin, Manzanillo and other points within striking distance of Santiago, and might not lose an opportunity to recover the ground lost at Santiago if the place were left insufficiently protected. Therefore Shafter's entire army is to be kept on guard on the high hills in the rear of the town until the men have stamped out the yellow fever. Then they will take a turn at the Spaniards if they can be found, and it may be that Shafter's march will end at Havana.

Wait Signal for an Uprising.

London, July 19.—The Madrid correspondent of the Daily Mail says: "It is well known here that for some time past the Carlists have been secretly placing stores, arms and ammunition in many of the smaller towns along the French side of the frontier. When the signal for a Carlist rising is given the taking of these supplies and munitions of war across the frontier will occupy at the most a single night, as the men are ready and know where they must go to receive arms and equipments."

Spain Gets Ready for Watson.

Madrid, July 19.—The defense works are being actively pushed at all the Spanish ports. The newspapers here assert that the United States intends to demand an enormous indemnity "in order to have the pretext to seize the Philippine Islands as a guaranty." The supposed American peace terms are greatly exciting the public, and the opinion is expressed among the people that war to the death would be preferable to the ruin of Spain.

Troops Embark for Manila.

San Francisco, Cal., July 19.—Thirteen hundred volunteers, comprising the First regiment of Montana and 300 recruits for the First California regiment, went on board the steamer Pennsylvania Monday and will probably sail today. Great crowds thronged the streets to see the men march by and at the wharf were many mothers and other relatives of the California recruits.

Typhoid at Camp Alger.

Washington, July 19.—The prevalence of typhoid fever at Camp Alger is giving the medical officers a great deal of trouble. That the disease is due to the impure water supply seems to be beyond question. There are now forty-five cases under treatment at Fort Myer and there have been seven deaths during the past two days.

Manzanillo Is Bombarded.

Havana, via London, July 19.—Seven American warships began to bombard Manzanillo Monday morning. Three steamers of the Menendez line were struck by shells and caught fire. The gunboats at Manzanillo left the port to attack the Americans, but went ashore. The result of the bombardment is not known.

Gen. Duffield Reported Better.

Washington, July 19.—The following telegram from Dr. Lagarde, regarding the case of Gen. Duffield, has been received: "Gen. Duffield has yellow fever; is at division hospital, but is doing nicely; much better today." Gen. Duffield has a vigorous constitution and no doubt is felt of his recovery.

Anna in Virginia, rode forty miles of Fairfax Station, for the express purpose of getting Chamberlain's Cough Remedy and took home with him, a dozen bottles of the medicine. The druggist who relates the incident adds: "Your remedy seems to be a general favorite wherever known." Its effects are indeed wonderful in all lung and throat troubles. Procure a bottle at Peoples' Drug Store, E. Mill, Manassas, Va.

PROCLAMATION PREPARED.

Plan of Government for the City of Santiago.

MILITARY WILL BE SUPREME.

Present Judges Are to Administer the Ordinary Laws of the Land—Major-General A. B. Chaffee Is to Be Military Governor.

Washington, July 19.—A proclamation has been prepared by President McKinley indicating the manner in which the province and city of Santiago de Cuba shall be governed. The proclamation states that the military commander of the city shall be supreme, and may impose military law whenever, in his judgment, it may be necessary; but the present judges are to be allowed to administer the ordinary laws of the land as long as the sovereignty of the United States over the surrendered territory is acknowledged. Church and private property are to be respected at all times.

The military governor is directed to make it known throughout the district that it is not the intention of the United States to make war on the citizens of Cuba, but to protect them in their rights as citizens, and to see that the fullest liberty is accorded them in their religion.

This is a summary of the main points in the proclamation as agreed upon by President McKinley and the cabinet. It was also virtually decided that Maj.-Gen. A. B. Chaffee should be made military governor of Santiago province, though the appointment has not yet been announced.

ORDERED TO SAIL.

Commodore Watson Will Proceed at Once to the Spanish Coast.

Washington, July 19.—By the emphatic personal direction of President McKinley the eastern squadron, commanded by Commodore John C. Watson, will start on its mission to the coast of Spain sooner than the navy department thought it would. The work of preparing the various vessels has been expedited, and it is believed that they will sail from Santiago within five days.

It was said that the reason no definite time for the departure of the squadron had been set was attributable to the desire of the administration to see whether there was any basis for the newspaper reports sent out from Madrid that Spain was ready to sue for peace.

Being convinced that there is no present intention on the part of the Spanish government to make overtures for putting an end to the war, the administration has determined to go ahead with the program for carrying hostilities to the enemy's very threshold, and as a result hurry orders to all officers concerned in getting Commodore Watson's ships in condition for departure for peninsular Spain have been issued.

Coal Mines Still Idle.

Pana, Ill., July 19.—Non-union men who were expected to work for the Penwell Mining company failed to put in an appearance Monday, and as a result the mine did not start up. The company had made every preparation for their protection, a strong guard of armed deputy sheriffs and policemen being stationed around the property and in the streets leading to it. An attempt was made to disperse the crowds and a number of arrests were made. Another effort to start up will be made.

Disastrous Fire on the Wear.

London, July 19.—A great fire that broke out in Sunderland, at the mouth of the Wear, Monday has already destroyed thirty business buildings in three of the principal streets. The flames are not yet under control.

Two Killed in a Train Wreck.
Jeffersonville, Ind., July 19.—The west-bound air-line passenger train leaving Louisville at 6 o'clock Monday was wrecked at Georgetown, nine miles below here, and Engineer William Cravens and John Elwood, a passenger, were killed. Cravens lived in New Albany and Elwood at Corydon Junction. A tramp who was beating his way was fatally injured. The wreck was caused by a repair engine which had stopped temporarily and failed to hang out a signal.

Two Killed in a Storm.
Elma, Ia., July 19.—A severe electric storm accompanied by a high wind passed over this section about 5 o'clock Monday afternoon, causing loss of life and doing great damage to farm property. At the farm of John Beaver, four miles west of town, the family had taken refuge in the cellar, when lightning struck the building and instantly killed Mrs. Beaver and a 14-year-old daughter, and so seriously injured a younger child that her recovery is considered doubtful.

Coal Discovered in Alaska.
San Francisco, Cal., July 19.—A rich deposit of coal, said to be equal in quality to Pennsylvania anthracite, has, according to advices from St. Michael's, been discovered some 400 miles up the Koyukuk. The river empties into the Yukon and is navigable up to where the coal has been located. Should the statement prove true it will revolutionize gold mining in the Klondike.

Book-Paper Mills Shut Down.
Appleton, Wis., July 19.—It is reported here that the Western Book-Paper Makers' association, which comprises chiefly the Wisconsin, Michigan and Ohio manufacturers of this grade of paper, have determined to shut down for the summer months at least. Four Appleton mills are affected. A big rise in the price of book paper is looked for.

Want Immigration Checked.
Topeka, Kan., July 19.—State Labor Commissioner Johnson has tabulated figures, showing the condition of laboring classes of Kansas. He finds that 96 per cent of those reporting favor the restriction of foreign immigration, the remaining 4 per cent being non-committal.

Foresters' Case in Court.
Milwaukee, July 19.—The injunction case of the supreme court, United Order of Foresters, having lodges in the northwestern states, came up in the superior court before Judge Ludwig Monday, who, after hearing argument of counsel on both sides, took the case under advisement until Wednesday.
